

Breaded Alaska pollock

by Mowi

Boneless, juicy Alaska pollock fillets from MSC certified sustainable fisheries in the Pacific Ocean, are the basis for breaded fish fingers and portions of various weights and sizes, as well as for breaded strips or nuggets which are ideal as finger food or snack. The combination of the mild taste and flaky texture of the fish with the crispiness of the bread crumb coating offers you both convenience and a delicious taste sensation. The coating protects the delicate fish flesh and ensures a great baking result and taste sensation after frying.
