

Breaded Alaska pollock fillets by Mowi

Breaded and pre-fried fish is convenient and easy to prepare in the oven or in regeneration equipment. These breaded fillets are made of juicy, boneless, single frozen Alaska pollock fillets from MSC certified sustainable fisheries in the Pacific Ocean. The crunch of the crispy bread crumb coating in combination with the delicate flavour and texture of the fish make it a great meal centre. After being cooked in our specially designed oven, the product is frozen and packed immediately. This technique preserves the flavour and texture of the product and results in minimal moisture loss.
