

Salmon fillet - steamed

by Mowi

These tail pieces of Atlantic salmon are available in different sizes. The natural salmon tail fillets are steamed in our specially designed oven. This cooking technique results in minimal moisture loss and preserves the juiciness and flavour of the salmon. Immediately after steaming, the salmon is frozen and packed. The steamed salmon is one of the products in our range of "Assembly-Ready" frozen fish products which allow regeneration kitchens or professional kitchens to assemble the components immediately in their kitchen. These products are also suitable for various industrial applications, such as ready-made meals, which still need to be prepared before consumption.

Zalmfilet - gestoomd 

Filet de saumon - cuit à la vapeur 

Lachsfilet - gedämpft 

Product Information

Scientific name:	<i>Salmo salar</i>	
Origin:	Farmed in Norway	
Composition:	Tail pieces of salmon, steamed	
Range:	Natural	
Product weight:	100-110g, 120-130g	
Shelf life:	Frozen -18°C:	18 months

Preparation - from frozen
