

Yellowfin sole roll - steamed

by Mowi

These rolls of natural yellowfin sole fillets, from MSC certified fisheries in the north-east Pacific Ocean, have a mild flavour and juicy texture. These steamed yellowfin sole rolls belong to our range of "Assembly-Ready" frozen fish products, specifically designed for regeneration. After being steamed in our specially designed oven, they are immediately frozen and packed. The specific cooking technique preserves the mild flavour and delicate texture of the fish and results in minimal moisture loss during regeneration. These products are also suitable for various industrial applications, such as ready-made meals, which still need to be prepared before consumption.

Serving suggestion

Pacifische scharrolletjes - 
gestoomd

Rouleau de Limande du 
Nord - cuit à la vapeur

Pazifische Kliescherolle - 
gedämpft
